Art Unit: 1734

The text of those sections of Title 35, U.S. Code not included in this action can be found in a prior Office action.

The 112 rejection, and of Van Horn are dropped, in view of applicant's amendments and arguments of 9/24/04.

Claims 1-4, 5, 7-9, 11, 26 and 27 are rejected under 35 U.S.C. 102(b) as being anticipated by Sawyer et al -3029783.

Sawyer show treatment of animal and Poultry manure solids (droppings –col. 1, lines 71-72) with aluminum chloride (chloride (col. 1, lines 55-60) to effectively reduce N compounds. Ammonia is tied up and thus made non-volatile and non-odorous and so increased in manure as of instant claim 8 (col. 2, lines 34-37). Added germicide reduces pathogen (line 67-70, col. 1). The compositions are to reduce 1) odor, 2) breeding grounds for infectious organisms and to reduce transmission of disease organism (col. 1, lines 22-28, 38-41).

Claims 6, 23-25 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

The claim 1 is to solid manure and litter, but claims 6 and 23-25 suggest treating a liquid, else flocculation and foam would not be present. Please explain/ amend.

Claims 1, 2, 6, 20, 21, 23-25 are rejected under the judicially created doctrine of obviousness-type double patenting as being unpatentable over claims 2, 15-20, 22 are of U.S. Patent No. 6,346,240. Although the conflicting claims are not identical, they are not patentably distinct from each other because the patent claims provide a general

Art Unit: 1734

descriptive picture of an envisioned embodiment of instant claim 1; that is the product in the treatment process constituting a slurry. Claim 15 of the patent does not require a liquid manure, nor does it exclude litter. Thus, the instant claim 1 is obvious, as a general statement of animal manure and bedding to be treated and encompassed by patent claim 15. A liquid may treat both manures.

Claims 3, 10, 12-19 and 22 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
